MOVE YOUR BODY SONG

Get ready
Everybody get ready
Get ready

Everybody get up
It's the move your body song
Everybody get up
It's the move your body song

Step right
Step left
Step right
Left
Right
Left

Get ready to march
March right, left, right, left, right, left, right, left, right

Now wave your hands to the right
Left
Right, left, right, left

Then do a little twist
Do a little twist
Do a little twist
Bend your knees and twist a little while

Now get a little silly
Get a little wild
Time to get ready to dance freestyle

Let's dance
We are dancin' all together
We are friends forever let's dance

Now let me see your hands
Put your hands up
Put your hands down
Put your hands on your hips and move your hips around

Put your hands up
Put your hands down
Put your hands on your hips and move your hips around

Hop to the front
Hop to the back
Put your hands together go clap, clap, clap

Hop to the front
Hop to the back
Put your hands together go clap, clap, clap

Let's Dance.

Freestyle dance!

We are dancin' all together
Put your hands together go clap, clap, clap
We are friends forever let's dance
Put your hands together go clap, clap, clap
Freestyle dance!

Let's dance
We are dancin' all together
We are friends forever let's dance

Let's Dance!

Now reach for the sky
Reach down and touch your toes
Take a seat cross your legs and put your hands in your lap
'Cause that's how the move your body song goes
