

ROCKSTAR ROADTRIP

Put on your seatbelt
Let's bring it
Grab your microphone
And let's sing it
1, 2, 1, 2, 3...

I came to dance
And I love this song
It's my plan
To sing along

I Move my hands
Wiggle my toes
I Touch the ground
Then I touch my nose

Right hand on the steering wheel
Turn it left right left right left right
Left hand on the steering wheel
Turn it left right left right left right

Cause I'm a rockstar
Throw my hands up high
Driving my car
Turning left and right

Gonna go far
Like the stars at night
I'm a rockstar
And I shine so bright

I rock n roll
Watch me spin my arms
To the right, to the left
Rolling near and far

My heart and soul
Shake my hips around
I'm on the go

Reach up then touch the ground

Right hand out the window
Flying up down up down up down
Left hand out the window
Flying up down up down up down

Cause I'm a rockstar
Throw my hands up high
Driving my car
Turning left and right

Gonna go far
Like the stars at night
I'm a rockstar
And I shine so bright

I came to dance
I love this song
And I'm amazing
I'm amazing

I came to dance
I love this song
And I'm amazing
I'm amazing
