

I'M A LITTLE SNOW ANGEL

Don't you just love it when it snows outside? When the snow is fresh and has no footsteps, I love to fall down and make a snow angel in it. Like This!

When the snow is falling in the winter
I just love to go outside
All the beauty of this wonderland here
Let's go walking in the white

With my feet I draw my favorite shape
Now the first letter that starts my name
Hold my hands out and feel fresh snowflakes
They fall, I love it all

Tiptoeing through the snow now, left right left right
Find the perfect spot to twirl around
Lie in the snow and make a big snow angel
Scoop the snow up high, and throw it down

Now the snow is fresh, let's put our coats on
And make angels in the yard
Use your hands to fall like little snowflakes
And cover all the trees and cars

With my feet I draw my favorite shape
Now the first letter that starts my name
Hold my hand out and feel fresh snowflakes
They fall, I love it all

Tiptoeing through the snow now, left right left right
Find the perfect spot to twirl around
Lie in the snow and make a big snow angel
Scoop the snow up high, and throw it down

Tiptoeing through the snow now, left right left right
Find the perfect spot to twirl around
Lie in the snow and make a big snow angel

Scoop the snow up high, and throw it down
