Lulu The Llama

I wake up in my llama bed
And lift my little llama head

I walk around the mountain tops
Then speed up into a trot

I forage around for grass and hay
& legumes, I could eat all day

I gallop when I need the speed
With two big toes on my llama feet

That's just what I do

I'm living the llama life
I'm living the llama life
Don't you know I feel alright
Just living the llama life
The llama life

I don't talk but I hum and cluck
And wiggle my ears to say what's up

When I meet a friend that's new
I cluck to say "how do you do"

When I'm hot & not having fun
I let out a llama hum

I flick my tail when I'm in the mood

And stretch my head up high to say “how rude”

That’s just what I do

I’m living the llama life

I’m living the llama life

Don’t you know I feel alright

Just living the llama life

The llama life
