

Train Song

Hey, welcome to the train ride
Grab your suitcase, step inside
We're going on a choo choo adventure
Say, tell me where you wanna go
Can you reach down touch your toes
Now come on clap your hands together

When your blink your eyes and open wide, see the world rush by
Give a wave, and don't be late, blow a kiss goodbye

'Cuz this train is speeding faster
We'll ride happily ever after
Come on friends, all aboard
Are you ready to see what adventure we are driving toward!

Chugga chugga choo choo (4x)

Whoa, pull your brake and slow it down
We are pulling into town
Jump up and stretch your arms up high
Oh! Here we go we pick up steam
We're cruising like a dream
Look out your window, see the blue sky

Take a rest in the quiet car, inside voices please
Now spin around, get ready to go, hands upon your knees

'Cuz this train is speeding faster
We'll ride happily ever after
Come on friends, all aboard
Are you ready to see what adventure we are driving toward!

Chugga chugga choo choo (4x)

Slow it down! Stop this train! 'Cuz we've arrived. See you next time!
