

WORLD OF KINDNESS

I love myself
I love my friends
And I just wanna show them how I feel and how I care
I love the earth
Our perfect home
From the oceans to the animals and trees that clean the air

It feels good being kind
Give a hug or share a smile
We can change the world, one day at a time

With love in our hearts
We'll do our part
To spread the kindness now, because I can, because I care
From one to the next
we'll do our best
And give the love we share
There's a world of kindness everywhere

I love my eyes
The way they see
The beauty in the people and the world in which we roam
I love my hands
The way they help
In cleaning up, or reaching out, to show we're not alone

With love in our hearts
We'll do our part
To spread the kindness now, because I can, because I care
From one to the next
we'll do our best
And give the love we share
There's a world of kindness everywhere
