Handshake Hop

Shake shake those hands
Jump up and land
Give a friend high-five
Now we understand
Come on back, get ready to jive, the handshake hop makes you come alive

Nice to meet you let me shake your hand
Jump up and down when you hear this jam
Back it up and gimme five
Let's fist bump see the fireworks fly
Come on back, get ready to roll, it's the handshake hop feel it in your soul

Bump your elbow to the right, bump your elbow to the left
Wash that window see the light wash that window do your best
It's the handshake hop, put your handshake to the test

Nice to see you lemme shake your hand
Jump so high to the beat of this jam
Gimme a high five in the air
Now fist bump like we just don't care (pow!)
Come on back get ready to go, it's the handshake hop and we're in the flow

Bump your elbow to the right, bump your elbow to the left
Wash that window see the light wash that window do your best
It's the handshake hop, put your handshake to the test

Shake shake those hands
Jump up and land
Give a friend high-five
Now we understand
Come on back, get ready to jive, the handshake hop makes you come alive
