MOUNTAINS IN THE SKY

Look up look up
Tell me what you see
Cumulus clouds with white on top
And smokey grey underneath

Sway your arms
Now you're floating way high
Fluffy and tall on a sunny day
We are mountains in the sky

Ohh we are mountains in the sky

Look up look up
Tell me what you see?
Wispy, feathery cirrus clouds
With blue sky in between

Point your toes
Like your dancing way up high
thin white lines across the blue
We are mountains in the sky

Ohh we are mountains in the sky

Look up look up
What do you see now?
A flat gray layer, like a fog
Those are stratus clouds

Sway your hips
Like your drifting way up high
A blanket of gray covers the sun
We are mountains in the sky

Ohh we are mountains in the sky
