

SUNSHINE AND MOON GLOW

There's a light that's yours to shine
If you only let it show
If you stand tall towards the sky
feels a little like you grow

Spread your arms out wide
Let your heart burn bright
And hold your head high

Like sunshine and the moon glow
Like daytime into the night
With your arms out like a rainbow
And spread your light
And spread your light
Wo-oah

There's a light that's yours to shine
If you only let it show
If you stand tall towards the sky
feels a little like you grow

Spread your arms out wide
Let your heart burn bright
And hold your head high

Like sunshine and the moon glow
Like daytime into the night
With your arms out like a rainbow
And spread your light
And spread your light
Wo-oah

There's a light that's yours to shine
If you only let it show

Like sunshine and the moon glow
Like daytime into the night

With your arms out like a rainbow
And spread your light
And spread your light
Wo-oah
