Flamingo Ballerino

Feet together, hands upon your hips, can you bend your knees just a little bit
You're looking like a flamingo now
Kiss your right toe to your left knee, then switch do the other side with me
Balance there and stretch your wings out

Paint yourself pink like a tall flamingo
Hop on one foot like a strong ballerino
Take your toe, draw a rainbow on the ground, all around

Feet together, hands upon your hips, can you bend your knees in a little dip,
This is how a graceful flamingo stands
Kiss your left toe to your right knee, then switch do the other side with me
Stretch your wings and balance in the warm sand

Paint yourself pink like a tall flamingo
Hop on one foot like a strong ballerino
Take your toe and draw a rainbow on the ground
Flap your feathers you're a tall flamingo
Hop on one foot like a happy ballerino
Take your toe and draw a rainbow on the ground, all around

And freeze! Can you balance there and freeze
Now touch your toe to your knee, you got it!
Now do the other side
Freeze, and touch your toe to your knee
Now stretch that leg out straight in front of you, stretch your wings out too, now take a bow!

Flap your feathers you're a tall flamingo
Hop on one foot like a happy ballerino
Take your toe and draw a rainbow on the ground, all around
