

### **Recycle Rap**

Reduce, Reuse, Recycle  
Reduce, Reuse, Recycle

Slide over to the bin and drop your paper right in  
Cause if we all recycle then everybody wins  
Newspapers, magazines, and junk Mail too  
All that Paper gets recycled, and that's what we love to do

Reduce, Reuse, Recycle  
Reduce, Reuse, Recycle

Now let's twist side to side, do it just like this  
Cause recycling makes us want to move our hips We got  
Packages delivered and the boxes folded flat All that  
cardboard gets recycled, and we're super into that

Reduce, Reuse, Recycle  
Reduce, Reuse, Recycle

We love love love taking care of the earth  
We recycle for the birds in the trees  
We keep it clean cause we know what it's worth  
We recycle for you and for me.

Now it's time to the moonwalk, while we sort and clean the cans  
Slide your feet back, yeah that's how we lend a hand Cans of  
beans, tomato sauce and chicken noodle soup All that metal  
gets recycled, and that's what we love to do

Reduce, Reuse, Recycle  
Reduce, Reuse, Recycle

Now let's floss as we flatten all this carton container Move  
your body to the beat, cause we love Mother Nature  
Whole milk, soy milk, two percent too

All those cartons get recycled and turned into something new

Reduce, Reuse, Recycle

Reduce, Reuse, Recycle

We love love love taking care of the earth

We recycle for the fish in the sea

We keep it clean cause we know what it's worth

We recycle for you and for me.

Now punch your arms up so high in the air

We're doing something really good for the planet we share

Plastic jugs of water and orange juice too

All that also gets recycled now you know what to do

Reduce, Reuse, Recycle

Reduce, Reuse, Recycle

Now gallop like a horse, all around and around

As we separate the glass for recycling now

Jars of jelly, jars of jam, none of it goes to waste

Cause when we all recycle it just makes us feel great

Reduce, Reuse, Recycle

Reduce, Reuse, Recycle

We love love love taking care of the earth

We recycle for the flowers and bees

We keep it clean cause we know what it's worth

We recycle for you and for me.

Reduce, Reuse, Recycle

Reduce, Reuse, Recycle
