SPACE SUPERSTAR

Calling all astronauts, are you ready to go to space? Let's get in the rocket, it's time for take-off!

Buckle into the rocketship
Helmets on, time to take a trip
Count it down, 5 4 3 2 1
Blasting off, point up at the sun!

As we fly, through the clouds, to the skies far from home
Journey high, to the moon, til it's touchdown, let's go

Slide your feet back
You're moon walkin'
Spin 'round and clap
Space superstar
Step to the front
In slow motion
Point to the sun
Space superstar
Slide your feet back
You're moon walkin'
Spin 'round and clap
Space superstar
Step to the front
In slow motion
Point to the sun
Space superstar

Now we're taking off, through the galaxy
Touch your head, and come with me
Run around, like a comet flies
Jump up high, wave the moon goodbye

As we fly, by the sun, passing jupiter and mars
Journey high, having fun, 'til we almost touch the stars

Slide your feet back

You're moon walkin'
Spin 'round and clap
Space superstar
Step to the front
In slow motion
Point to the sun
Space superstar
Slide your feet back
You're moon walkin'
Spin 'round and clap
Space superstar
Step to the front
In slow motion
Point to the sun
Space superstar
